At the invitation of the USSR Academy of Sciences, an Indian delegation led by the Secretary, Department of Non-Conventional Energy Sources visited USSR from 8—18 October, 1988 for further discussion on cooperation in research and development work in the field of MHD systems of power generation and other areas of new and renewable sources of energy. On the conclusion of the visit, a protocol was signed for continuing the existing cooperation between the two countries in the field of Magneto Hydro Dynamics (MHD) and further expanding the area to applications of MHD for geological prospecting and other applications of certain components in Metallurgy. The Protocol also includes development of direct coal-field combustors/gasifiers, fluidized-bed gasifiers for gasifying different quality coals and development of pulsed MHD generator and high temperatured air preheteers for application in steel plants for conservation of coking coals. Among the new areas in which the two countries have agreed to explore possibilities of cooperation is development of hydrogen as a fuel particularly for transport sector development of electron beam systems and catalysts for pollution control and photovoltaics R&D with particular attention to special semiconducting materials.
